OVERVIEW

Employment Services in the One-Stop Delivery System

Passage of the Workforce Investment Act of 1998, (WIA), and the incorporation of Wagner-Peyser activities into that legislation, supported landmark changes for the way public employment services are to be delivered. Across the country, Wagner-Peyser Act core employment and workforce information services are now an integral and strategic part of the One-Stop delivery system providing seamless services to workers and employers with a variety of other One-Stop system partners.

Performance accountability is a strategic priority in WIA's vision for an integrated workforce system that is better able to respond to the needs of customers. Investors in the nation's workforce development system are eager to learn the impact of their investments in the public labor exchange and how effective the system is at helping individuals to find jobs and at giving employers access to skilled workers. Full and accurate information on the performance of the labor exchange and partner programs should be available to and easily understood by all interested customers and stakeholders.

Common Measures

To enhance the management of the workforce system and usability of performance information, the Department, in partnership with other Federal agencies, has developed a set of common performance measures for Federally-funded training and employment programs. The common measures for adult training and employment programs are: entered employment, employment retention, and earnings increase. Beginning July 1, 2005, the common measures take effect for Departmental training and employment programs.

Common measures provide the ability to describe, in a consistent manner, the core purposes of the workforce system, (e.g., how many people found jobs; how many people remained employed; how much did they earn, etc.). Standardizing the definitions of outcomes across programs simplifies reporting and provides a greater ability to compare and manage results. For Wagner-Peyser Act services, common measures will help tell a more complete story that will aid Congress, the states, the business community and other partners and stakeholders in assessing the value of labor exchange services for our customers within an integrated workforce investment system. The common measures replace the previous labor exchange performance measures.

ETA 9002 Reports and Specifications

The ET 406 Handbook is the roadmap for the data collection and reporting process to support labor exchange performance measurement within the context of partner program performance measurement systems. The five sections comprising the ETA 9002 reporting instructions are divided into three distinct areas: services (9002 A and B), outcomes (9002 C and D) and job openings received (9002 E). The common measures introduce new concepts for measuring performance of the labor exchange function, including the concept of participant, the concept of program exit using a “soft” exit, and the concept of exiter.

Wagner-Peyser Act funded services are reported on the 9002 A for all participants and on the 9002 B for participants who are veterans, eligible persons, or transitioning service members. The 9002 C and D follow this sequence by separately capturing the employment outcomes resulting from the provision of labor exchange services for all individuals who exit from Wagner-Peyser (9002 C) and exiters who are veterans, eligible persons, or transitioning service members (9002 D). With implementation of the common measures for the labor exchange, the Department is eliminating the requirement to collect and report customer satisfaction data on the 9002 C and D for job seeker and employer customers. Appendices A, B and C of this Handbook contain the report formats, data element specifications, and report calculation specifications needed to prepare these reports.

VETS 200 Reports and Specifications

The Veterans Employment and Training Service (VETS) 200 Reports are, in essence, a subset of the ETA 9002 data. The data reported contain similar elements as the ETA 9002, but only apply to the activities of participants who received one or more services from Local Veterans Employment Representatives (LVERs) and Disabled Veteran Outreach Program staff (DVOPs). This enables VETS to evaluate the outcomes of the more intensive services offered to participants under these two programs.

As indicated, the common measures are likewise applied to programs and services administered through the DVOP and LVER grant programs. The VETS 200 reports are the VETS 200 A, services/outcomes by DVOP staff; VETS 200 B, services/outcomes by LVER staff; and VETS 200 C, unduplicated count of services/outcomes provided by DVOP/LVER staff. Appendices A, B and C of this Handbook contain the report formats, data element specifications, and report calculation specifications needed to prepare these reports.

I. INTRODUCTION

A. HANDBOOK PURPOSE

Reporting requirements for labor exchange services and performance outcomes of the state administered, Federally-funded Wagner-Peyser Act program are contained in this Handbook. Data reported on the ETA 9002 A, 9002 B, 9002 C, 9002 D, and 9002 E reports and VETS 200 A, 200 B, and 200 C reports are comprised of information entered by each state from its management information systems, which contain job seeker characteristics and services and records of Work Applications and Job Orders. Additionally, data are obtained through matching information on job seekers with employment outcome information obtained from unemployment insurance (UI) wage records, the State Directory of New Hires (SDNH) database, or other automated sources.

Revisions to the ET Handbook No. 406 contain updated information to reflect the implementation of common measures and other modifications to the labor exchange and VETS performance measurement system. To ensure that data reported on the ETA 9002 A through 9002 E and the VETS 200 reports reflect accurate information, required report forms and reporting specifications, including data element and report element definitions, are included in this Handbook. States will submit the ETA 9002 and VETS 200 reports electronically to the Department.

B. BACKGROUND

States are required to submit quarterly reports to the Employment and Training Administration (ETA) to comply with the Wagner-Peyser Act, (29 U.S.C. 49), with 38 U.S.C. 4107 (b) and (c), and with 38 U.S.C. 4112(c). The ET Handbook No. 406 (ETA 9002 and VETS 200 Data Preparation Handbook) is the official source for reporting requirements on the ETA 9002 and the VETS 200 reports.

This Handbook was developed to facilitate completion of the ETA 9002 and VETS 200 quarterly reports. Should changes in definitions resulting from new legislation and/or related regulations occur, appropriate revisions will be issued to reflect these changes. Handbook revisions are distributed through Handbook Transmittals issued from the National Office. Dates of issuance are displayed at the bottom of each revised page. Additional clarifying guidance would be issued in the future through formal guidance letters.

C. PAPERWORK REDUCTION ACT

States are not required to respond to these reporting requirements unless they display an OMB approval number. Respondents' obligation to reply to these reporting requirements is mandatory per Wagner-Peyser Act sec.10(c), 29 U.S.C. 49i(c). Public reporting burden for this collection of information is estimated to average 346 hours per response for each of the seven 9002 A through D and VETS 200 A through C reports, and 21 hours per response for the 9002 E report. These estimates include the requisite time for reviewing instructions, searching existing data sources, collecting and maintaining the data needed to generate the reports, generating the reports, and reviewing the collection of information.

If you have any comments regarding this estimate or any other aspect of this collection of information, including suggestions for reducing this burden, please send them to the U.S. Department of Labor, Office of Workforce Investment, Room S-4231, 200 Constitution Avenue, NW, Washington, D.C. 20210. (Paperwork Reduction Project 1205-0240).

II. REPORTING INSTRUCTIONS

A. GENERAL REPORTING GUIDANCE

State agencies report data on labor exchange services provided to job seekers, including veterans, and on job openings employers list with the labor exchange, based on information contained in administrative records. States also report information on individuals transitioning from active military service who seek services through the One-Stop delivery system. An emphasis on the provision of workforce information is contained in these reports. State agencies are required to collect and maintain information to support labor exchange program reporting under OMB No. 1205-0001, Work Application/Job Order Recordkeeping.

State agencies also report employment outcomes of job seekers, including veterans. Employment outcomes of job seekers who exit the labor exchange will be derived primarily via a wage record match using UI wage records. States may utilize other automated data sources – such as the State Directory of New Hires, Wage Record Interchange System (WRIS), U.S. Postal Service, the U.S. Department of Defense, state and local government employment records – that reliably indicate entry into employment. Supplemental data, such as case management notes or employer verification of date of hire, is also an allowable data source for documenting employment and retention for workers not covered by UI wage records. States should, however, weigh the benefit of establishing potentially expensive follow-up systems for customers who take advantage of core labor exchange services provided at a relatively low-cost.

Because employment outcome data are dependent on the availability of wage records, outcome information for job seekers and veterans are collected separately from information on services.

Exhibit II.1 describes the information that will be collected on each of the ETA 9002 and VETS 200 reports.

EXHIBIT II.1

It is the policy of the Office of Workforce Investment (OWI) to assure accuracy, uniformity, and comparability in the reporting of statistical data derived from State Workforce Agency operations through state adherence to Federal definitions of reporting items, use of specified formats, observance of reporting due dates, and regular verification of reporting items.

The National Office assists state agencies in meeting these requirements by establishing definitions and reporting specifications and through the data validation process. States are encouraged to use the ETA-developed report validation software, which is compatible with the definitions and report specifications contained in this Handbook.

B. REPORTING SCHEDULE

States will continue to report using a rolling four quarter reporting methodology for the ETA 9002 and VETS 200 reports. Reports are to include the most current data available for each reporting element for a four-quarter reporting period. Each quarterly report will include information on participants and services received within the prior four quarters, and outcome information on exiters as data become available. Appendix D of this handbook provides participant and exiter cohorts for each quarterly report to be submitted for Program Years 2005, 2006, and 2007.

Quarterly reports are due no later than forty-five (45) days following the completion of each quarter. The schedule is as follows:

<u>Quarter Period</u>	<u>Report Due Date</u>
July 1 – September 30	November 14
October 1 – December 31	February 14
January 1 – March 31	May 15
April 1 – June 30	August 14

Should the due date of the report fall on a Saturday or Sunday, the quarterly report is due the Friday before.

C. KEY DEFINITIONS

1. Concept of Participant

State agencies are required to report information on individuals who are *Participants* with the public labor exchange. Wagner-Peyser services are available to all customers (universal access); therefore, no formal determination of eligibility is required. DVOP/LVER services are available to veterans, eligible persons and transitioning service members (TSMs) who meet the applicable eligibility criteria.

Total Participants: Job seekers who provide basic contact information (including a social security number or a system-generated unique identification number) and receive any Wagner-Peyser funded core employment and information service in a One-Stop Career Center, satellite center, a partner agency's physical location, or via the internet from a remote site. For data management purposes, many states have reporting systems that enable them to track job seekers who receive core or workforce information services remotely. The Department encourages all states to develop this capacity so that sufficient program management data will be available to provide business, the Congress and the general public a more complete and accurate picture of the level of services provided through the workforce investment system.

A “service” includes any of the Wagner-Peyser Act funded employment and workforce information services delivered via any of the three tiers of service delivery: self-help, facilitated self-help and staff-assisted. Job seekers who receive services in a One-Stop Career Center or affiliate site, or remotely via the internet are considered participants.

Important Note: TEGL 28-04 Common Measures Policy indicates that a “self-directed job search that does not result in a referral to a job” is not considered a service. This exclusion is strictly limited to the act of conducting a job search, job bank browsing or modifying job search requirements (e.g., salary limits). There are other self-directed job search activities which are not included in this definition and are considered reportable services. Examples of such activities

include, but are not limited to, building resumes, accessing workforce information, and enrolling in an online job search mini-course.

2. Point of Exit

Total Exiters: Job seekers (participants) who exit from the labor exchange become part of an exit cohort, a group of individuals determined to be “exiters” and used collectively for performance management purposes. Once a participant has not received any services funded by the program or a partner program for 90 consecutive calendar days and has no planned gap in service and is not scheduled for future services, then the date of exit is applied retroactively to the last day on which the individual received a service funded by the program or a partner program. States will report a total count of Exiters in the ETA 9002 and VETS 200 reports.

3. Workforce Information

In partnership with states, the Department is exploring ways to determine the efficacy and impact of critical investments in core workforce information products and services. These investments are designed to better integrate workforce information services into states’ and local boards’ strategic planning, into One-Stop partner service delivery strategies, and into effective tools to assist workers and business with aligning career and workforce goals. The Department is working with states to encourage the integration and application of workforce information into workforce investment decision-making, which includes strengthening the system’s knowledge of local economic conditions, local labor market analysis, business workforce needs and economic development initiatives. The prevailing theory is that integrating workforce information into the decision-making processes of state and local workforce investment boards, One-Stop partners and One-Stop operations, will result in better decisions to match economic development and workforce needs, improved customer service and greater positive outcomes.

Accordingly, the Department has revised reporting requirements to begin collecting baseline information on whether the outcomes for participants who receive workforce information services occur at a higher rate than for participants who did not access workforce information services. Participant receipt of workforce information as both self- or staff- assisted services and sub-aggregation of outcomes based on the receipt of workforce information have been incorporated into the ETA 9002 A, B, C and D reports.

Definition of Workforce Information: Workforce information includes providing information on state and local labor market conditions; industries, occupations and characteristics of the workforce; area business identified skills needs; employer wage and benefit trends; short- and long-term industry and occupational projections; worker supply and demand; and job vacancies survey results. Workforce information also includes local employment dynamics information such as workforce availability; business turnover rates; job creation; and job identification of high growth and high demand industries.

4. Reporting of Transitioning Service Members

The Jobs for Veterans Act of 2002 (P.L. 107-288) calls for an increased emphasis by the One-Stop delivery system on providing employment services to Transitioning Service Members (TSMs) and authorizes this target group as eligible to receive employment services from DVOP and LVER staff. Effective implementation of this new statutory emphasis and authority will require coordination in delivering One-Stop services to this target group.

The Jobs for Veterans Act also calls for increased attention to the reporting of characteristics, services, and outcomes for TSM participants. Since the members of this target group are not yet veterans, they occupy a unique status for reporting purposes. Accordingly, accurate reporting of information on those TSMs served by the One-Stop system will require careful application of reporting specifications that are unique to this target group, as detailed in the appendices of this Handbook.

Information on TSM participants is in the total and/or separately identified in sub-aggregate counts on the ETA 9002 A, B, C and D reports and the VETS 200 A, B and C reports.

Definition of TSM: A service member in active duty status (including separation leave) who participates in employment services and is within 24 months of retirement or 12 months of separation.

Additional guidance on reporting parameters for Transitioning Service Members will be available in a Veterans Program Letter (VPL).

5. Reporting of Homeless Veterans

Information on homeless veterans is included in the VETS 200 C report. Accurate reporting of homeless veterans' information will require the careful application of the reporting specifications detailed in the appendices to this Handbook.

In recent years, government at all levels has devoted significant attention to reducing the incidence and severity of homelessness in America. Within that overall thrust, specific attention has been devoted to reducing homelessness among veterans. Consistent with those initiatives, the Homeless Veterans' Comprehensive Assistance Act of 2001 (P.L. 107-95) established a definition for homeless veterans by combining an existing statutory criterion for homelessness with an existing statutory criterion for veteran status. In the interest of inclusiveness, the veteran status criterion applied for this purpose in the statute is less stringent than the veteran status definition normally applied to determine eligibility to receive services from DVOP and LVER staff. Therefore, those individuals who meet this less stringent veteran status criterion, along with the homelessness criterion, are included in the homeless veteran target group and are fully eligible to receive services from DVOP and LVER staff.

Definition of Homeless Veteran: An individual who served in the active military, naval, or air service, and who was discharged or released from such service under

conditions other than dishonorable, and who lacks a fixed, regular, and adequate nighttime residence. This definition includes any individual who has a primary night time residence that is a publicly or privately operated shelter for temporary accommodation; an institution providing temporary residence for individuals intended to be institutionalized; or a public or private place not designated for or ordinarily used as a regular sleeping accommodation for human beings. This definition does not include an individual imprisoned or detained under an Act of Congress or State law. An individual who may be sleeping in a temporary accommodation while away from home should not, as a result of that alone, be recorded as homeless.

One element of the ongoing efforts to reduce homelessness has been the Homeless Veterans' Reintegration Program (HVRP). The community and faith-based grantees responsible for implementing that program are strongly encouraged to coordinate their efforts with the One-Stop Career Centers in their localities, specifically with the DVOP staff assigned to those facilities.

Beginning July 1, 2005, data on homeless veterans provided employment assistance by DVOP and LVER staff will be reported on the VETS 200 C report (not the VETS 200 A or B reports). It is intended that this report will include information on those HVRP participants who are served by DVOP or LVER staff, as well as information on any other homeless veterans who are not HVRP participants but who are served by DVOP or LVER staff.

6. Job Openings

Job Opening: A job vacancy which an employer intends to fill. Job openings will be reported according to the date they were listed with the public labor exchange. Job openings listed through staff funded under the Wagner-Peyser Act must be included in the count of job openings. Job openings listed through staff of other partner programs *may be included* in the count of job openings in accordance with state policy. Job openings initially listed with America's Job Bank and imported into the state job bank may be included in the state's count of job openings.

State agencies are required to report information on job openings listed with the public labor exchange on the 9002 E report. The format for job openings listed is consistent with the Occupational Information Network Standard Occupational Classification System (O*NET-SOC) and the North American Industry Classification System (NAICS).

NAICS replaces the U.S. Standard Industrial Classification System (SIC), and is the first industry classification system to encompass the U.S., Canada and Mexico. NAICS allows for comparable industrial production statistical analysis across the three North American Free Trade Agreement (NAFTA) countries. NAICS is a more flexible system than the SIC and is based on the grouping together of economic units that use like processes. The O*NET system, using a common language and terminology to describe occupational requirements, supercedes the more than sixty-year-old *Dictionary of Occupational Titles* with current information that can be accessed online or through a variety of public and private sector career and labor market information systems.

Reporting Job Openings Listed on America's Job Bank and State Job Banks:

Many states download job openings from America's Job Bank into their state job bank. ETA encourages this practice to provide job seekers with access to additional employment opportunities to which they may not ordinarily be exposed. However, to provide for consistency in information reported on job openings, job openings initially listed with America's Job Bank and imported into the state job bank should be excluded from the count of jobs states report on the ETA 9002 E report. Job openings posted with America's Job Bank are reported separately.

7. Employer (20 CFR 651.10)

A person, firm, corporation or other association or organization (1) which currently has a location within the United States to which U.S. workers may be referred for employment, and which proposes to employ a worker at a place within the United States and (2) which has an employer relationship with respect to employees under this subpart as indicated by the fact that it hires, pays, fires, supervises and otherwise controls the work of such employees. An association of employers shall be considered an employer if it has all of the indicia of an employer set forth in this definition. Such an association, however, shall be considered as a joint employer with the employer member if either shares in exercising one or more of the definitional indicia.

8. Establishment (20 CFR 651.10)

A public or private economic employing unit generally at a single physical location which produces and/or sells goods or services, for example, a mine, factory, store, farm, orchard or ranch. It is usually engaged in one, or predominantly one, type of commercial or governmental activity. Each branch or subsidiary unit of a large employer in a geographical area or community should be considered an individual establishment, except that all such units in the same physical location shall be considered a single establishment. A component of an establishment which may not be located in the same physical structure (such as the warehouse of a department store) should also be considered as part of the parent establishment. For the purpose of the "seasonal farmworker" definition, farm labor contractors and crew leaders are not considered establishments; it is the organizations to which they supply the workers that are the establishments.

9. Firm

A business organization consisting of one or more domestic establishments in the same State and industry that were specified under common ownership or control. The firm and the establishment are the same for single-establishment firms.

D. COLLECTION OF EQUAL EMPLOYMENT OPPORTUNITY DATA

The Social Security Number (SSN) and employment status elements are the minimum participant data needed to track service outcomes under the common measures through the Unemployment Insurance wage record match.

Upon request of the SSN, the customer must also be offered the opportunity to provide Equal Employment Opportunity (EO) information. Per 29 CFR Part 37, customers must be offered the opportunity to self-identify the following characteristics: race/ethnicity, gender, date of birth (age) and disability status. Customers must be given a brief description of the ways in which the EO data will be used, and must be informed that: (1) provision of the data is voluntary; (2) the data will be kept confidential as required by law; (3) customers choosing not to provide this information will still be allowed to receive services (unless the data is necessary in order to determine eligibility for services); and (4) the data will be used only in accordance with the law.”

For further information, refer to “Collection of Federal Equal Opportunity Information” in Appendix E.

E. ELECTRONIC REPORTING

All reports must be submitted through ETA’s web-based reporting system and must be sent in time to arrive in the National Office by the due date, which is the date the report is electronically submitted. All five sections of the ETA 9002 report (9002 A through 9002 E) and all three sections of the VETS 200 report (200 A through 200 C) must be complete in order for the reports to be successfully transmitted to the National Office. *Incomplete reports will not be accepted by the on-line system.*

F. TIMELINESS

All reports must be transmitted in time to arrive in the National Office by the due date. Every attempt should be made to certify quarterly report data in order to avoid delinquent reports. The Department will provide additional guidance to facilitate the joint certification of ETA 9002 and VETS 200 data at the state and regional office levels.

G. REPORT COMMENTS

Comments concerning policies, procedures, and/or local economic conditions that account for fluctuations in the data reported or that have special significant effects on the meaning of certain items in a report are useful in interpreting reports and reducing communications concerning reports. Provisions have been made to include comments for all electronic reports. Using meaningful abbreviations, the space provided should generally be adequate. States are encouraged to use this section of the report at their discretion.

H. EDIT TEST PROCEDURES

States should ensure that the reports are internally consistent. Specifications for edit tests to ensure consistency between row and column totals and elements on the ETA 9002 reports are found in the Labor Exchange Reporting System Handbook. Reports will not be accepted if these edit tests are not followed.

I. PROCEDURES FOR ROUNDING NUMBERS

Unless otherwise noted, the 5/4 rounding method is to be used. That is, if the digit to the right of the digit to be rounded is 5 or more, round up to the next higher digit. If the digit to the right of the digit to be rounded is 4 or less, round down or truncate. Values which are totals of other values appearing on the same form should be the sum of the rounded sub-part figures.

J. RECORDS RETENTION

Unless otherwise noted in specific instructions, source data supporting counts should be retained for at least two years after the report due date.

[Note: 20 CFR 652.8(5) requires that State agencies retain basic documents (Work Application and Job Order) for one year. 20 CFR 658.604(c)(4) also refers to a state's requirement to retain data, but provides no time frame.]

APPENDIX E –
COLLECTION OF FEDERAL EQUAL OPPORTUNITY INFORMATION

COLLECTION OF FEDERAL EQUAL OPPORTUNITY INFORMATION

Beginning on the effective date of this reporting system, states are required to collect, maintain, and report equal opportunity information, including sex, age, disability, ethnicity, and race, for all individuals who apply for benefits or services financially assisted by the program. This requirement is in accordance with 29 CFR Part 37, “Implementation of the Nondiscrimination and Equal Opportunity Provisions of the Workforce Investment Act of 1998.” For reference, sections 37.37(b)(1), (b)(2) and (d) of title 29 CFR mandate the following:

(b)(1) Each recipient must collect such data and maintain such records, in accordance with procedures prescribed by the Director [Director of the Civil Rights Center, Office of the Assistant Secretary for Administration and Management, DOL], as the Director finds necessary to determine whether the recipient has complied or is complying with the nondiscrimination and equal opportunity provisions of WIA or this part. The system and format in which the records and data are kept must be designed to allow the Governor and CRC [Civil Rights Center, Department of Labor] to conduct statistical or other quantifiable data analyses to verify the recipient's compliance with section 188 of WIA and this part;

(b)(2) Such records must include, but are not limited to, records on applicants, registrants, eligible applicants/registrants, participants, terminees, employees, and applicants for employment. Each recipient must record the race/ethnicity, sex, age, and where known, disability status, of every applicant, registrant, eligible applicant/registrant, participant, terminee, applicant for employment, and employee;

(d) Where designation of individuals by race or ethnicity is required, the guidelines of the Office of Management and Budget must be used.

Other sources of authority for this requirement include 29 CFR 31.5(b), in DOL’s regulations implementing Title VI of the Civil Rights Act of 1964, and 29 CFR 32.44(b), in DOL’s regulations implementing Section 504 of the Rehabilitation Act of 1973. The CRC Director has determined that collection of the equal opportunity information sought by this section of the reporting system is necessary in order to determine whether recipients have complied, or are complying, with the nondiscrimination and equal opportunity provisions of WIA and other applicable statutes.

The collection of equal opportunity information is to be self-identified by the individual and is voluntary. Individuals should be made aware of the reason for the request of such information as well as the parties to whom disclosure may be made. Information collected from the individual will be used to monitor compliance of recipients with the equal opportunity and nondiscrimination requirements enforced by the CRC. It will also be used to assist the grantee and the Department in evaluating and improving efforts to conduct outreach to diverse population groups, including racial and ethnic minorities and persons with disabilities.

The collection of ethnicity and race information contained within these reporting instructions are in accordance with the Office of Management and Budget (OMB) Statistical Directive 15 (as adopted October 30, 1997 at <http://www.whitehouse.gov/omb/fedreg/ombdir15.html>). The ethnicity and racial categories in this classification are social-political constructs and should not be interpreted as being scientific or anthropological in nature. They are not to be used as determinants of eligibility for participation in any Federal program. The standards have been developed to provide a common language for uniformity and comparability in the collection and use of data on race and ethnicity by Federal agencies.

OMB has determined that a two-question format should be used in all cases involving self-identification of ethnicity and race. Therefore, ethnicity information (i.e., Hispanic or Latino) must be collected separately from race information, and individuals who indicate that they are Hispanic or Latino should also have the opportunity to select one or more racial categories. Information on an individual's ethnicity must also be collected before information on race. When completing race information, individuals must be offered the option of selecting one or more racial designations. Recommended forms for the instruction accompanying the race information should instruct the individual to read each racial designation carefully and then "Mark one or more . . ." or "Select one or more . . ." races to indicate what the individual considers him/herself to be.

For the purposes of the requirements in this section of the reporting system, disability means, with respect to an individual, a physical or mental impairment that substantially limits one or more of the major life activities of such individual. 29 CFR 37.4 provides further clarification of the term "disability"; relevant portions of the definition have been included below for reference

(1)(i) *The phrase physical or mental impairment means—*

- (A) *Any physiological disorder or condition, cosmetic disfigurement, or anatomical loss affecting one or more of the following body systems: neurological, musculoskeletal, special sense organs, respiratory (including speech organs), cardiovascular, reproductive, digestive, genitourinary, hemic and lymphatic, skin, and endocrine;*
- (B) *Any mental or psychological disorder such as mental retardation, organic brain syndrome, emotional or mental illness, and specific learning disabilities.*

(ii) *The phrase physical or mental impairment includes, but is not limited to, such contagious and noncontagious diseases and conditions as orthopedic, visual, speech and hearing impairments, cerebral palsy, epilepsy, muscular dystrophy, multiple sclerosis, cancer, heart disease, diabetes, mental retardation, emotional illness, specific learning disabilities, HIV disease (whether symptomatic or asymptomatic), tuberculosis, drug addiction, and alcoholism. The phrase ``physical or mental impairment'' does not include homosexuality or bisexuality.*

(2) The phrase major life activities means functions such as caring for one's self, performing manual tasks, walking, seeing, hearing, speaking, breathing, learning, and working.

Information collected from the individual will be used to monitor compliance of recipients with the equal opportunity and nondiscrimination requirements enforced by the CRC. It will also be used to assist the grantee and the Department in evaluating and improving efforts to conduct outreach to diverse population groups, including racial and ethnic minorities and persons with disabilities.

Personally identifying information (i.e., equal opportunity information by SSN) will not be included in the tabulation or transfer of data to the Department. The Department will use the data supplied by the individual to determine how many applicants are from different groups and how many of these applicants are determined eligible to receive services financially assisted by the program in question. The Department will then assess compliance with nondiscrimination and equal opportunity requirements, as well as the effectiveness of specific outreach efforts and means of communication in light of this information.
